**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER  
 FAILURE TO MONITOR**

**ESTE INFORME CONTIENE INFORMACIÓN IMPORTANTE ACERCA DE SU AGUA POTABLE. HAGA QUE  
 ALGUIEN LO TRADUZCA PARA USTED, O HABLE CON ALGUIEN QUE LO ENTIENDA.**

**Monitoring Requirements Not Met for TIOGA BOROUGH MUNICIPAL AUTHORITY**

Our water system violated several drinking water standards over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we did to correct these situations.

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During JULY 17 2022 we failed to monitor for the following contaminants and therefore cannot be sure of the quality of our drinking water during that time.*

**What should I do?**

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the last year, the required sampling frequency, how many samples we took, when samples should have been taken, and the date on which corrective action samples were (or will be) taken.

| Contaminant | Required sampling frequency | Number of samples taken | When all samples should have been taken | When samples were or will be taken |
|-------------|-----------------------------|-------------------------|---|------------------------------------|
| HAA5        | 1                           | 1                       | JULY 17,2022                            | JULY 13, 2022                      |
| TTHM        | 1                           | 1                       | JULY 17,2022                            | JULY 13 ,2022                      |
|             |                             |                         |   |                                    |

**What happened? What was done? When will it be resolved?**

BOTH SAMPLES WERE TAKEN A DAY EARLY.SAMPLES WERE TESTED WITH NO HEALTH EFFECTS.
